REGULATORY AUTH.

102 JAN 25 PM 2 17  
January 25, 2002

OFFICE OF THE  
EXECUTIVE SECRETARY

David Waddell, Esq.  
Executive Secretary  
Tennessee Regulatory Authority  
460 James Robertson Parkway  
Nashville, TN 37243-0505

Re: *Complaint of Access Integrated Network, Inc. Against BellSouth  
Telecommunications, Inc.*  
Docket No. 01-00868

Dear David:

Enclosed are the original and thirteen copies of the Testimony of Joe Gillan and Rodney Page filed on behalf of Access Integrated Network, Inc. in the above-captioned proceeding. I have include both proprietary and non-proprietary versions of the exhibits to Rodney Page's testimony. Please call me if you have any questions.

Very truly yours,

BOULT, CUMMINGS, CONNERS & BERRY, PLC

**TESTIMONY OF JOSEPH GILLAN**  
**ON BEHALF OF**  
**ACCESS INTEGRATED NETWORKS INC.**  
**AND ITC^DELTACOM INC.**

1      **Q. Please state your name, business address and occupation.**

2

3      A.     My name is Joseph Gillan. My business address is P. O. Box 541038, Orlando,  
4                         Florida 32854. I am an economist with a consulting practice specializing in  
5                         telecommunications.

6

7      **Q. Please briefly outline your educational background and related experience.**

8

9      A.     I am a graduate of the University of Wyoming where I received B.A. and M.A.  
10                         degrees in economics. From 1980 to 1985, I was on the staff of the Illinois  
11                         Commerce Commission where I had responsibility for the policy analysis of  
12                         issues created by the emergence of competition in regulated markets, in particular  
13                         the telecommunications industry. While at the Commission, I served on the staff  
14                         subcommittee for the NARUC Communications Committee and was appointed to

1           Select Service Manager for a “hands-on” resolution of chronic or more difficult  
2           problems.

3

4       **Q.     What is the basic issue raised by the BellSouth Select Program?**

5

6       A.    There is no question that BellSouth Select discriminates in favor of certain  
7           BellSouth customers, offering these “preferred” customers lower rates (through  
8           rebates and other rewards) and an exclusive service-escalation process. The  
9           program effectively renders BellSouth’s tariffs “dead letters,” as its tariffed  
10          offerings no longer accurately describe the prices and terms available to all  
11          customers. In a very real sense, the BellSouth Select program “self-deregulates”  
12          BellSouth, providing BellSouth the unilateral ability to choose when its tariffs  
13          apply and when they do not. The entire *purpose* to a tariff, however, is to prevent  
14          the type of customer discrimination that BellSouth practices through the  
15          BellSouth Select program.

16

17       **Q.     Why is BellSouth required to offer its regulated services under tariff?**

18

19       A.    The tariff is a central element of common carrier regulation. Its purpose is to  
20          prevent discrimination, as well as providing the Authority the instrument through  
21          which it can assure reasonable rates (*i.e.*, by establishing precisely what rate a  
22          utility may charge). Few institutional devices are as successful (and, therefore, as  
23          long lived) as tariffs – tariffs have provided the foundation for common carrier

1 regulation for more than 125 years.<sup>2</sup> Given the importance of tariffs to regulation,  
2 the Courts have generally required strict adherence to the tariffed rate. As the  
3 Supreme Court articulated:

4

5 The rights as defined by the tariff cannot be varied or enlarged by  
6 either contract or tort ...This stringent rule prevails, because  
7 otherwise the paramount purpose of Congress, prevention of unjust  
8 discrimination, might be defeated.<sup>3</sup>

9

10 **Q. Have tariffs out-lived their usefulness?**

11

12 A. No. Longevity should not be confused with obsolescence. As recently as 1990,  
13 the Supreme Court reaffirmed the importance of tariffing in the context of an  
14 increasingly competitive transportation industry:

15

16 For a century, this Court has held that the [Interstate Commerce] Act, as it incorporates the filed rate doctrine, forbids as  
17 discriminatory the secret negotiation and collection of rates lower  
18 than the filed rate. By refusing to order collection of the filed rate  
19 solely because the parties had agreed to a lower rate, the ICC has  
20 permitted the very price discrimination that the Act by its terms  
21 seeks to prevent.<sup>4</sup>

---

22

23

2 For instance, the Supreme Court has traced the history of tariffing back (at least) as far as 1886, noting that Congress found tariffing "...necessary to prevent carriers from intentionally "misquoting" rates to shippers as a means of offering them rebates or discounts." See *Maislin Industries v. Primary Steel*, 497 U.S. 116 (1990) ("Maislin").

3 Keogh V. Chicago & Northwestern Railroad, 260 U.S. 156, 163 (1922).

4 See *Maislin*.

1           While local telecommunications markets may someday become sufficiently  
2           competitive that the Tennessee legislature decides to abandon tariffing, that day  
3           has not yet arrived. Nor, obviously, should it be BellSouth's choice as to when  
4           that day has come.

5

6       **Q.    Is tariffing still important for markets that are transitioning to competition?**

7

8       A.    Yes. In fact, in some ways tariffing becomes *more* important in markets that are  
9           transitioning to competition. To begin, the purpose of a tariff is to prevent  
10          discrimination – offering reduced rates to some customers, while denying the  
11          opportunity to others. In markets where competition is emerging, disparate  
12          competitive conditions would otherwise encourage -- absent prohibitions on  
13          discrimination -- the incumbent to offer lower rates to *only* those customers with  
14          choice, while retaining *higher* rates for captive ratepayers. This approach not  
15          only harms customers, it also has the potential to harm competitors (to the extent  
16          that above cost prices for captive customers are what enables the lower prices  
17          offered customers with choice).

18

19          Moreover, the federal Telecommunications Act of 1996 requires that incumbent  
20          local exchange carriers make available their services to entrants with rates that are  
21          determined as a discount from the retail rate. Tariffs are essential to this  
22          requirement, for it is the tariff that *defines* the retail rate to which a discount

1           should apply.<sup>5</sup> If BellSouth is permitted to evade its tariff obligations through the  
2           selective discounting (and discriminatory service-performance procedures) that  
3           together form BellSouth Select, BellSouth would not only be in a position to offer  
4           lower rates to only *some* customers, it could effectively avoid its resale obligation  
5           as well.

6

7       **Q. Is there any question that the BellSouth Select program offers customers an  
8           off-tariff rebate that is equivalent to a reduction in the tariff price?**

9

10      A. No. BellSouth Select customers are offered a 2.5% cash-back rebate of the  
11           tariffed price of the service. Although BellSouth sometimes characterizes the  
12           credits as applying to “unregulated” portions of the customer’s bill, the credits  
13           themselves are earned through the purchase of regulated services. Moreover,  
14           BellSouth provides customers the option of cold, hard cash (actually the cash is in  
15           the form of a check that is neither cold nor unusually hard), clearly piercing the  
16           veil of this “the discount applies to the unregulated service” fiction.

17

18       **Q. Are there other aspects of the Authority’s regulation (and Tennessee law)  
19           that BellSouth Select potentially evades?**

20

---

<sup>5</sup> Ironically, the TRA has held that resellers must honor the terms of BellSouth’s tariffs, even though BellSouth Select excuses (at least as evidenced by BellSouth’s behavior) BellSouth from doing so. See In the Matter of the Petition of MCI Telecommunications Corporation for Arbitration of Certain Terms and Conditions of a Proposed Agreement with BellSouth Telecommunications Inc. Concerning Interconnection and Resale Under the Telecommunications Act of 1996, Docket No. 96-01271, March 7, 1997, page 18.

1       A. Yes. Tennessee statute requires that incumbent local exchange carriers that elect  
2       price regulation to adhere to a price floor for competitive services.<sup>6</sup> Off-tariff  
3       arrangements distort this process in two ways. First, in the absence of a tariff that  
4       identifies the price, there is no *price* to compare to the *price floor*. Second, by  
5       statute, the price floor computation is directed to consider the tariffed rates for  
6       essential elements, which again assumes that the tariffed rate actually applies.  
7       This final point serves to underscore the initial point of this testimony – tariffing  
8       is central to the regulation of BellSouth, and its core legitimacy is undermined by  
9       the BellSouth Select scheme.

10

11      **Q. What do you recommend?**

12

13      A. It is clear that BellSouth Select effects *precisely* the discrimination that tariffing is  
14       intended to prevent. To begin, the Authority should immediately order its  
15       termination. A more difficult proposition is fashioning a penalty that  
16       appropriately discourages BellSouth from pursuing such actions in the future.

17

18       The standard remedy for an off-tariff scheme is set forth by the Supreme Court in  
19       Maislin. This remedy would require that BellSouth reverse its BellSouth Select  
20       program, reassessing BellSouth Select members its tariffed rates through the  
21       return of credits, awards or cash. The problem with this remedy, however, is that

---

<sup>6</sup> T.C.A § 65-5-208(c)

1           it punishes the customer for BellSouth's transgression, which, while presumably  
2           legal, is not a remedy that I would recommend.

3

4           On the other hand, BellSouth has clearly evaded its tariffs and resale obligations,  
5           harming competitors and the competitive process more generally. Although the  
6           Authority cannot turn-back the clock so that the competitive market can operate  
7           without the distortion of BellSouth Select, the Authority can require that  
8           BellSouth adjust its resale bills to CLECs as though they had been enrolled as  
9           BellSouth Select customers themselves, refunding 2.5% of their bill since the  
10          program was introduced.<sup>7</sup> The BellSouth Select program is analogous to a  
11          volume discount, and the Federal Communications Commission has already ruled  
12          that such discounts should apply to the total sales of a reseller:

13

14          With respect to volume discount offerings, however, we conclude  
15          that it is presumptively unreasonable for incumbent LECs to  
16          require individual reseller end users to comply with incumbent  
17          LEC high-volume discount minimum requirements, so long as the  
18          reseller, in aggregate, under the relevant tariff, meets the minimal  
19          level of demand.<sup>8</sup>

20

21

22          In addition, the BellSouth Select program offered discounts to any BellSouth  
23          service, irrespective of its regulatory classification. Consequently, it would be  
24          reasonable to extend the same principle to BellSouth's other local offerings,

---

<sup>7</sup>       BellSouth Select was introduced in Tennessee in March, 1999. BellSouth Response to  
XO's 2<sup>nd</sup> Data Request, Item No. 6.

<sup>8</sup>       Report and Order, In the Matter of Implementation of the Local Competition Provisions  
in the Telecommunications Act of 1996, CC Docket No. 96-98, August 1, 1996, ¶ 953.

1                   including the prices that it has assessed on network elements purchased by its  
2                   competitors. Such an decision would assure that all competitors were treated  
3                   equally, and consistently with retail customers.

4

5                   Finally, the Authority should adopt additional reporting requirements for  
6                   BellSouth – such as the obligation to file with its Staff all marketing plans under  
7                   which a Tennessee subscriber can obtain a regulated service in Tennessee – to  
8                   assure that off-tariff arrangements such BellSouth Select not occur in the future.

9

10          **Q. Does this conclude your testimony?**

11

12          A. Yes.

**BEFORE THE TENNESSEE REGULATORY AUTHORITY**

**IN RE: COMPLAINT OF ACCESS INTEGRATED NETWORK, INC.  
AGAINST BELLSOUTH TELECOMMUNICATIONS, INC.**  
**DOCKET NO. 01-00868**

---

**TESTIMONY OF RODNEY PAGE OF  
ACCESS INTEGRATED NETWORKS, INC.**

---

**January 25, 2002**

BEFORE THE TENNESSEE REGULATORY AUTHORITY  
NASHVILLE, TENNESSEE

1    IN RE:    **COMPLAINT OF ACCESS INTEGRATED NETWORK, INC. AGAINST**  
2                **BELLSOUTH TELECOMMUNICATIONS, INC.**

3                **DOCKET NO. 01-00868**

---

**TESTIMONY OF RODNEY PAGE**

---

4    **Q. Please state your name and occupation.**

5    A.    My name is Rodney Page. I am Vice President of Marketing and Strategic Development  
6                for Access Integrated Network, Inc. Access is a competing local exchange carrier  
7                operating in Tennessee. We primarily serve small business customers. A portion of my  
8                responsibilities at Access include the development of the regulatory function of the  
9                business with the general objective of monitoring pertinent federal and state regulatory  
10              issues that impact the company's ability to achieve its business plan. I have over 30  
11              years of experience in the telecommunications industry, including 21 years with  
12              BellSouth and 7 years as president of my own consulting firm, all prior to joining Access  
13              in July 1999.

14    **Q. What is the purpose of your testimony?**

15    A.    I want to explain why my company has filed this complaint against BellSouth  
16              Telecommunications, Inc. and why we are pursuing this complaint.

17    **Q. How did you become aware of the issue which prompted you to file a complaint?**

1     A.    One of our Tennessee customers received a sales offer from BellSouth. According to the  
2               offer, the customer could receive three months of free service if the customer agreed to  
3               return to BellSouth and sign a three-year contract. I asked our attorney if BellSouth was  
4               allowed to give away regulated services in Tennessee. He investigated and determined  
5               that BellSouth had no tariff or promotion in effect in Tennessee that allowed the company  
6               to offer three months of free service. In other words, we had caught BellSouth red-  
7               handed trying to steal one of our customers through an illegal offer. That's when I  
8               decided to file this complaint.

9     **Q.    What have you learned since you filed the complaint?**

10    A.    When we first filed the complaint, BellSouth responded by telling this Authority that this  
11          sales offer was an aberration, some kind of mistake, and that BellSouth had suspended  
12          further marketing by the sales company that had made the offer. We now know that  
13          BellSouth's explanation wasn't exactly true. The offer of three months free service was  
14          not a mistake or a misunderstanding. In fact, the offer was part of a multi-state marketing  
15          plan which was tested in parts of Tennessee in May and June of 2001 and offered  
16          throughout the state beginning in July. The program was scheduled to run through the  
17          end of 2001. The offer to our customer was made in accordance with training guides  
18          provided by BellSouth Telecommunications. Attached to my testimony are some of  
19          those materials which describe the program as well as notes of a sales offer made under  
20          this program. Although BellSouth had told this agency in August of last year and again  
21          in October that the company did not have any marketing programs targeted specifically at  
22          CLEC customers, that also was not true. At the time BellSouth made those  
23          representations, the company was actively targeting CLEC customers with the offer of

1       three months of free service and other non-tariffed benefits if the customer would return  
2       to BellSouth.

3   **Q. Isn't the offer of free service good for customers? Isn't that how competition works?**

4   A. No, it's not. What BellSouth is doing is illegal. It cheats customers and threatens the  
5       development of a competitive market.

6   **Q. Please explain.**

7   A. It is illegal for BellSouth to discriminate among similarly situated customers. To prevent  
8       discrimination this agency – along with every other state utility commission – require  
9       BellSouth to file tariffs. Those tariffs set forth the terms and conditions under which  
10      BellSouth offers regulated telephone services to the public. Those tariffs must be  
11       approved by this agency. They must be “just and reasonable” and in accordance with  
12       Tennessee’s pricing statutes. BellSouth’s offer of three months of free service to certain  
13       customers is not authorized by any tariff. It was apparently offered only to CLEC  
14       customers in an effort to win them back to BellSouth. It was, in effect, a secret (by that, I  
15       mean non-tariffed) plan to discriminate among customers based on whether or not they  
16       were part of the Select program. The offer of three months free service was so obviously  
17       illegal that BellSouth suspended the offer after we filed our complaint.

18   **Q. Does that mean BellSouth has corrected the problem?**

19   A. No. Instead of giving customers free service, BellSouth now offers them cash rebates  
20       equal to three months of service. What’s the difference? BellSouth is still offering  
21       special deals to some customers but not to others. Whether it’s three months of free  
22       service or the cash equivalent, the offer is still illegal.

1     **Q. You have explained how the offer discriminates among customers. How does**  
2     **BellSouth's offer hurt competition?**

3     A. As I've already explained, BellSouth's offer of three months of free service was a  
4     "Welcome Back" program that targeted CLEC customers. That was anti-competitive.  
5     The Board of my company began to question the validity of our business plan in light of  
6     what amounted to a forty percent annual discount being offered by our largest competitor.  
7     That kind of offer could put us out of business. Finally, the whole reason we had the  
8     requirement that carriers file tariffs is that every customer and every carrier will have full  
9     knowledge of the rates of every other carrier. Rates aren't supposed to be "secret." One  
10    of the purposes of that statute is to prevent predatory pricing. BellSouth should not be  
11    able to use its market power to collect monopoly profits from some customers in order to  
12    offer secret rebates to others to dissuade them from going to a CLEC or to persuade them  
13    to return to the company. If BellSouth is allowed to cheat on its tariffs, how can the  
14    Tennessee Regulatory Authority even purport to encourage competition or to create a  
15    level playing field?

16    **Q. Are there other aspects of the BellSouth Select program that are discriminatory?**

17    A. Yes. We have learned that the BellSouth Select program has been offering secret rebates  
18    since 1999. The rebates consisted of prizes, discounts off the BellSouth bill, or cash.  
19    Attached to my testimony is a list of rebates made to Tennessee customers since the  
20    program began. In sum, BellSouth handed out approximately 4500 illegal rebates with a  
21    monetary value of more than \$750,000. We have also learned that BellSouth Select  
22    offered certain customers better service than others. The enhanced repair service is  
23    described by BellSouth in an attachment to my testimony. In other words, the Select

1 program not only gives certain customers a cheaper rate than provided in the tariff but  
2 better service as well.

3 **Q. Are there any other concerns raised by the BellSouth Select program?**

4 A. Yes. What concerns me the most is that all of this was occurring while BellSouth was, at  
5 the same time, trying to win approval of its 271 applications. Given the importance of  
6 that goal, one would think that BellSouth would have been especially careful to play by  
7 the rules and not to engage in any questionable behavior that could be characterized as  
8 anti-competitive. But what did we find? While telling the states and the FCC that the  
9 local markets are open to competition, BellSouth implements a secret, multi-state  
10 marketing scheme, offering illegal rebates of cash and free service to CLEC customers.

11 If BellSouth was willing to cheat on a massive scale while their 271 applications were  
12 pending, what's going to happen after 271 is approved? This case makes it apparent that  
13 the states have got to adopt strict enforcement procedures to prevent this from happening  
14 again.

15 **Q. What remedies are you requesting?**

16 A. Certainly, the Select program has to be stopped in its tracks. It's an illegal rebate  
17 program which discriminates among similarly situated customers. Ten percent of  
18 BellSouth's business customers have been getting better service at a cheaper rate than  
19 the other ninety percent of their business customers. The only way to remedy that  
20 without penalizing customers is to eliminate the discrimination by giving refunds to those  
21 customers who were not in the program.

22 **Q. Please explain.**

1     A.   The TRA can never wholly compensate those non-Select customers who were paying the  
2               tariffed rates, not getting any rebates and not getting any special repair services. But at a  
3               minimum, the Authority should order BellSouth to refund 2½ % of all charges to  
4               business customers in Tennessee since the beginning of the Select program. Those  
5               customers were, in effect, being overcharged by not being part of the Select program.  
6               They deserve a refund. Furthermore, BellSouth should be required to refund similar  
7               amounts to all purchasers of wholesale services who have also been overcharged by  
8               being left out of the Select program. Finally, the Authority needs to set up an on-going  
9               enforcement mechanism to keep watch on similar conduct in the future.

10    Q.    **Does that conclude your testimony?**

11    A.    Yes.
